VENUS

Wellbeing

Transport

One of the best-connected destinations in Greater Manchester.

Located just ten minutes from Manchester City Centre, VENUS also benefits from being just minutes from the motorway, has a dedicated bus interchange and Metrolink outside the building and even has a heliport on the doorstep.

- > Onsite EV Car Charging Drivetimes
- > J10 M60: 2 mins
- > MediaCity: 10 mins
- > Manchester City Centre: 15 mins

- > Two dedicated Metrolink stations in TraffordCity.
- > Monday to Saturday – Every 12 minutes
- > Friday and Saturday, midnight to 1am – Every 24 minutes
- > Sunday – Every 15 minutes

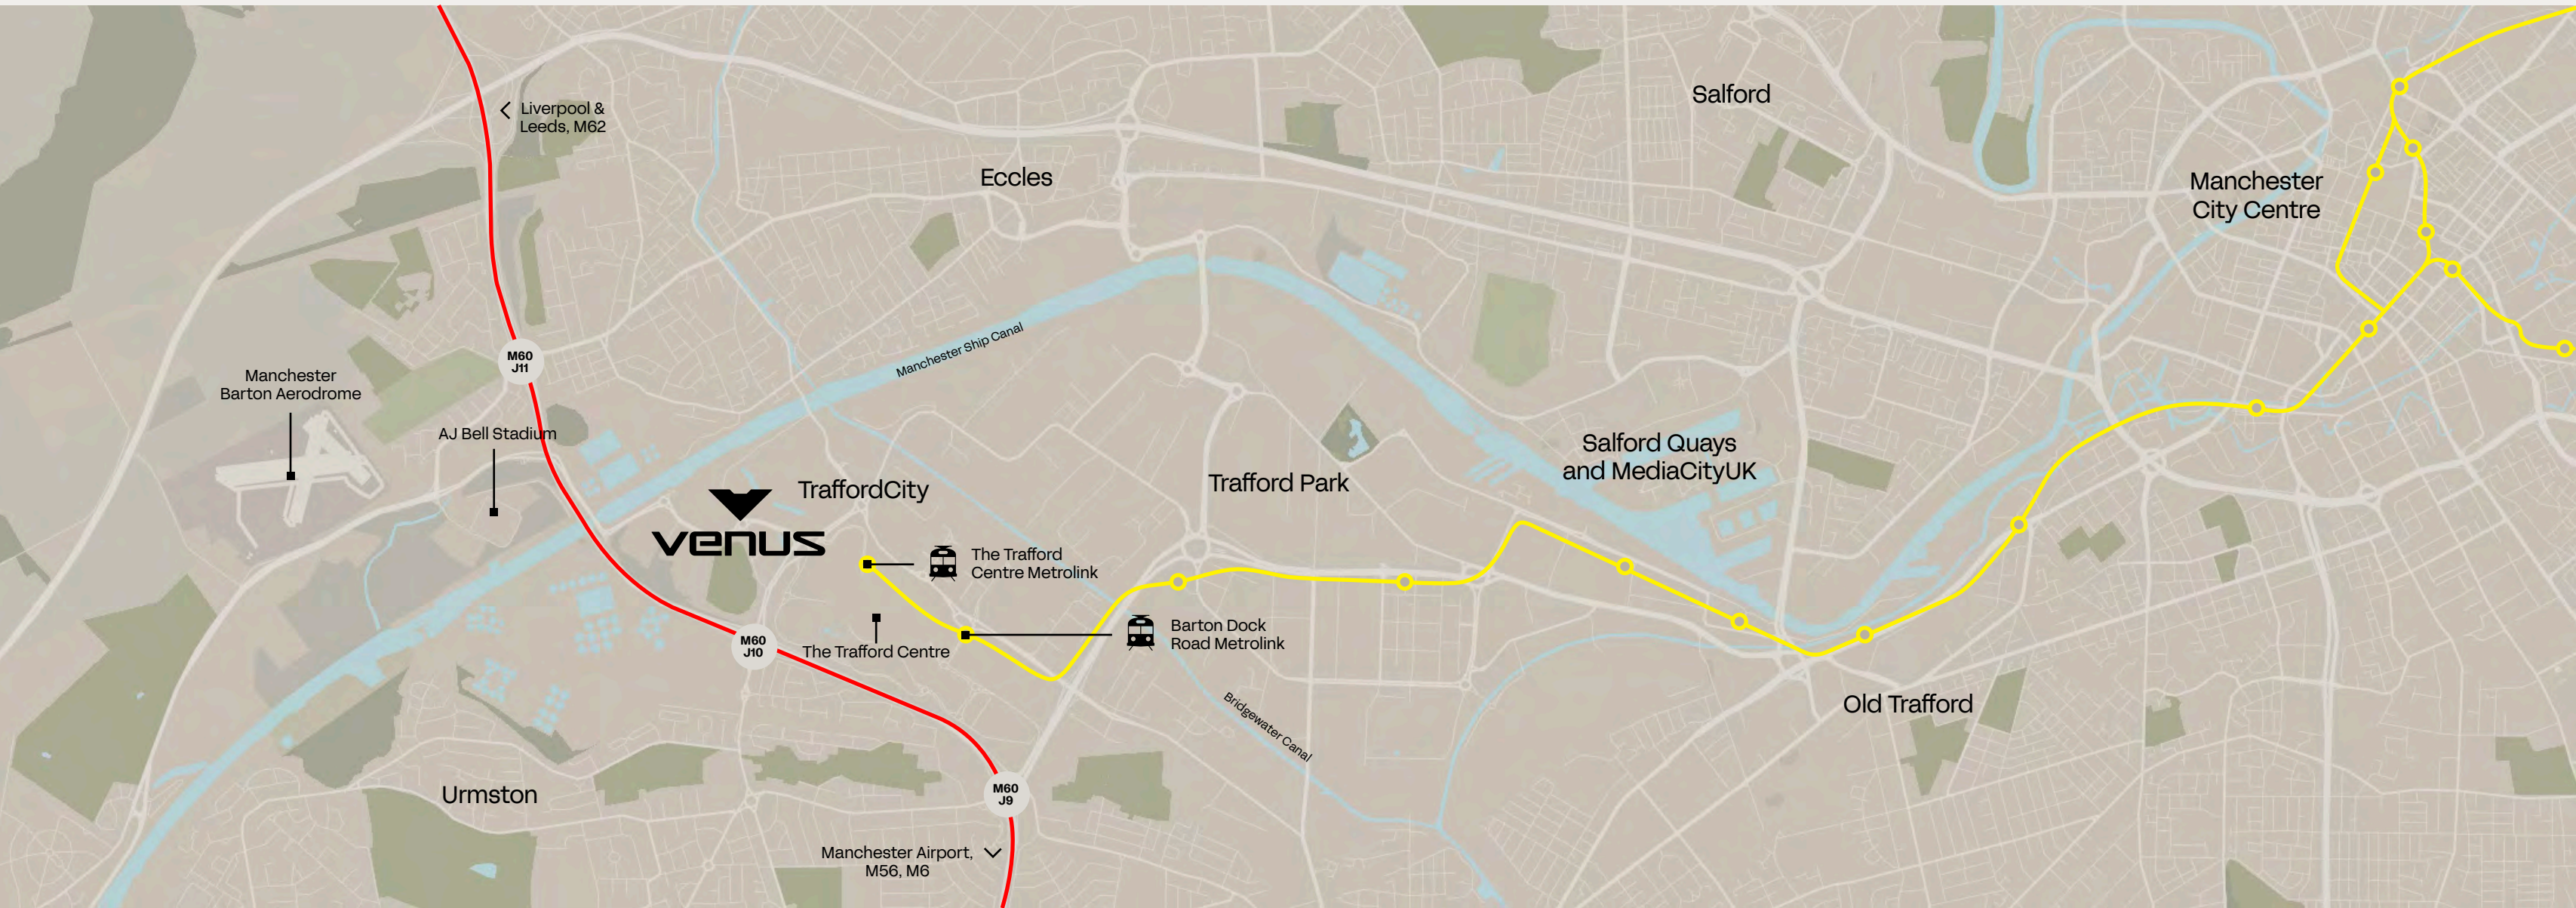

- > Scenic cycle routes into TraffordCity via The Bridgewater Way Canal with secure cycle parking on-site at VENUS.

- > Part of the BEE Network – with 70 destinations across Greater Manchester available via the bus station outside VENUS.

- > Private and business flights can be facilitated from City Airport and Heliport which is situated just five minutes away.
- > Manchester International Airport is 20 minutes from VENUS and Liverpool John Lennon Airport is 45 minutes away.

VENUS is at the centre of a destination that keeps growing.

Over the next three years TraffordCity will be boosted by approximately £350 million of investment with a total £2.6 billion over the next 20 years.

Here's a glimpse into just some of the exciting future developments coming to TraffordCity.

A growing community

▼ Ice Arena

The TraffordCity ice arena will be Planet Ice's biggest venue in the UK.

The purpose-built facility will feature a state-of-the-art ice rink, which will also convert into a multi-use event space as is set to host ice hockey games, concerts and performances.

▼ The Padel Club

The Padel Club at TraffordCity will be a 1.5-acre development featuring nine-indoor courts and two-outdoor courts making it the biggest padel facility in the north. Players will also be able to enjoy a state-of-the-art clubhouse and social experience curated and designed by wellness experts.

Therme Manchester

Featuring multiple pools, waterslides, saunas and steam rooms, mineral baths, swim up bars and even an all-season indoor beach; Therme Manchester, will be a one-of-a-kind destination that will boost the health and wellness of everyone who visits.

Spanning 28 acres Therme Manchester will be the UK's first city-based wellbeing resort and is expected to become one of the best all season water-based destinations in the world.

Trafford Waters

Work has started on creating a new sustainable community across 53 acres of land next to the Manchester Ship Canal.

Trafford Waters will be a waterside neighbourhood in TraffordCity which will create 3,000 new homes, a new school, health centre, new parks and 800,000 sq. ft of commercial space.

Surf Resort

The £75m development will be the first inland surf destination in the North of England.

The TraffordCity attraction will give surfers access to world-leading surfing technology that can produce 1000 waves every hour at different intensities and have capacity for up to 90 people to surf at any one time.

At VENUS, we have:

Operated an Energy Management System compliant with ISO 50001 since 2015

Verified the building Net Zero Carbon in operation using the UK Green Building Council's (UKGBC) framework definition (verified in 2020 and amongst the first in the UK)

Diverted 100% of waste from landfill for the last five years.

10 EV charging points in the car park for our occupiers and visitors.

An EPC C rating and striving for an EPC B rating by 2027.

Energy & Carbon

We are continuously looking at ways to improve our energy efficiency of our building from installing more efficient equipment to supporting behaviour changes in the building – savings which are passed directly onto our customers.

We are now extending our carbon impact reporting to include Scope 3 emissions reporting and working with our major contractors to establish action plans to reduce these emissions.

Climate Risk Assessment

To understand the climate-related risks associated with Venus we have completed a climate risk assessment using climate modelling data.

The project has helped us to better understand our changing climate and identify adaptation measures we can look to implement to ensure the resilience of the asset for the future.

Waste

At Venus, we provide collections for General Waste, Dry Mixed Recycling, Paper & Cardboard and Food Waste, to help maximise the segregation of waste and encourage a strong recycling rate. We actively engage with our occupiers on the importance of waste management.

Outside

We have an array of social seating in our green space overlooking the large fountain lake which can support everyone's sense of health and wellbeing whilst working at Venus.

We have an onsite allotment for anyone who fancies a spot of gardening during the day where we grow fruit and vegetables which are donated to local charities.

We also installed the first green roof in Trafford, located on top of the onsite Kids Allowed Nursery.

Transport

Venus is located adjacent to the Trafford Centre's transport hub which provides numerous services every hour to over 70 destinations throughout Greater Manchester.

The Trafford Metrolink line is on our doorstep connecting Venus with the City Centre as well as national rail stations with Manchester.

VENUS has been officially recognised as one of the best office developments in the country for its broadband and telecom infrastructure.

VENUS

- > Availability of both copper and fibre connections
